

Methodology:

The age of the **active cases** and **adjourned Sine die* cases** = cases that are currently on-going for over 24 months before the court, measured as the number of days from filing until the time of measurement.

The cases that have been monitored in **2017 and 2018** are **only civil matters from all level of court except Court of Appeal Civil Cases (COACV)**. In **2019**, the court has started to monitor **both civil and criminal matters from all level of court**.

Civil Cases	Criminal Cases
Court of Appeal Civil (COACV)	Court of Appeal Criminal (CAOCM)
High Court Civil Appeal (HACV)	High Court Criminal Appeal (HACM)
High Court Criminal Suit (HCCS)	High Court Criminal Trial (HCCT)
Originating Summon (OS)	Criminal Motion (CM)
Originating Motion (OM)	Intermediate Court Criminal Trial (ICCT)
Intermediate Court Civil Suit (ICCS)	Magistrates Court Criminal Trial (MCCT)
Intermediate Court Civil Suit – Commercial (ICCS/COM)	Road Traffic Arrest (RTA)
Magistrates Courts Civil Suit (MCCS)	
Bankruptcy : a. Creditors Petition (CP) b. Debtors Petition (DP) c. Involuntary Company Winding Up (ICWP) d. Voluntary Company Winding Up (VCWP)	

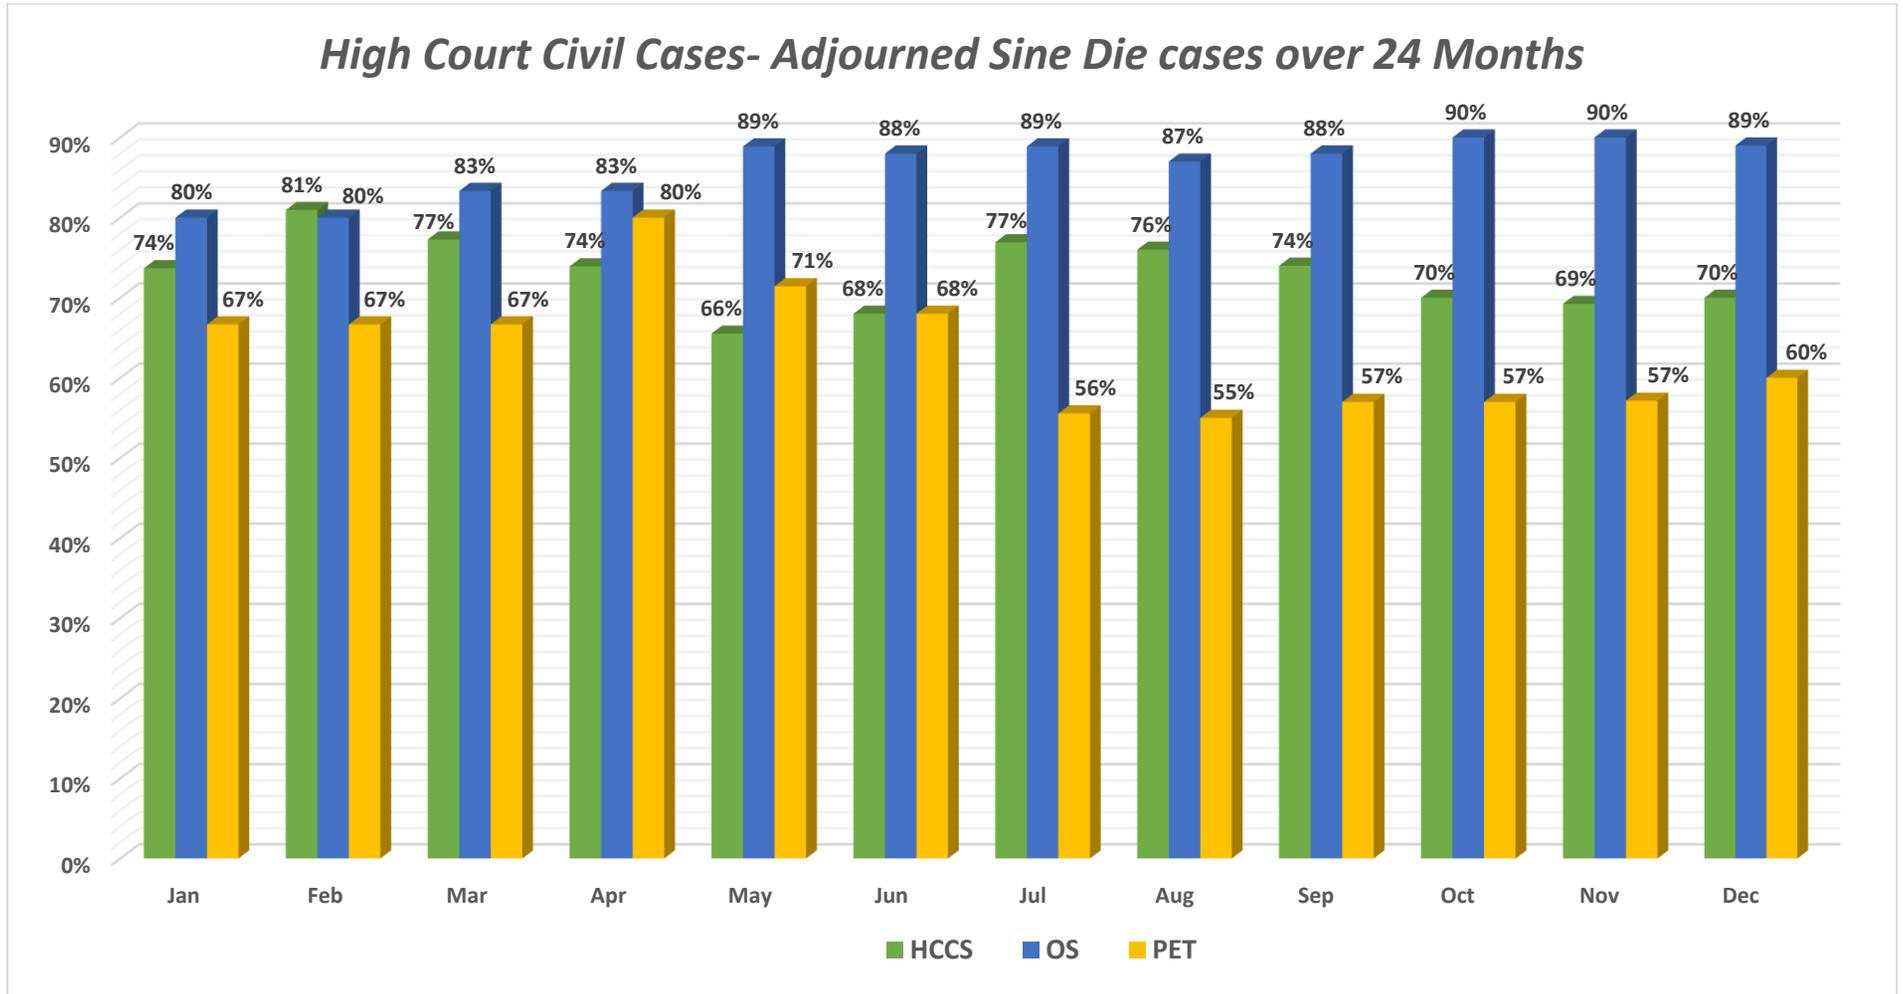

Ageing list is calculated:

Active Cases	Adjourned Sine Die Cases
$\frac{\text{Active Cases more than 24 Months}}{\text{Total Active Cases}} \times 100\%$	$\frac{\text{Adjourned Sine Die Cases more than 24 Months}}{\text{Total Adjourned Sine Die Cases}} \times 100\%$

This measurement will show the higher the percentage of ageing list (Active cases and Adjourned Sine Die), the more on-going caseload over 24 months that the court has.

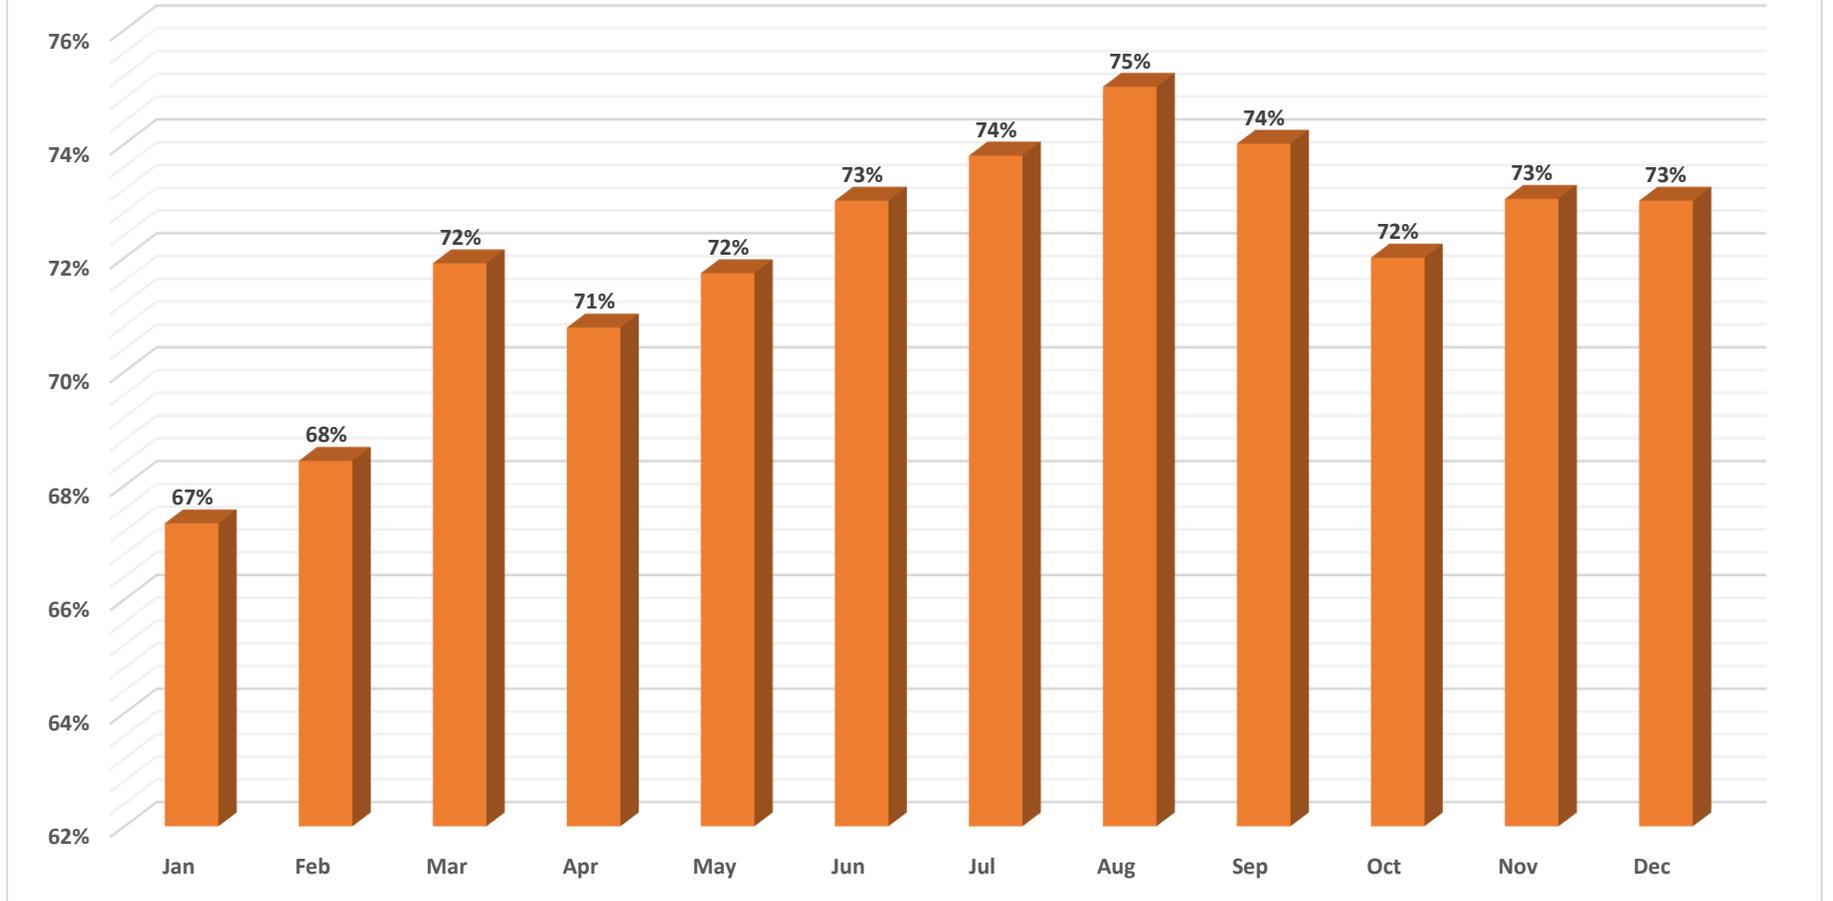

Note:- *adjourned sine die cases are cases still in progress but without assigning a day for a further meeting or hearing due to several factors/circumstances.
